

Erratum

Vol. 4, No. 5 (1970), in the article, "Tree Acceptors and Some of Their Applications," by John Doner, pp. 406–451:

Page 407, line 14, should read as follows: "I wish to extend my thanks to Professors J. W. Addison and Alfred Tarski for many stimulating discussions and helpful suggestions. In particular, Addison first called my attention to the decision problem for the weak second-order theory of two successors, considered in Section 3 below, while Tarski suggested generalizing the results obtained there to corresponding decision problems for locally free algebras, which is the topic of Section 5 below."
